

COMPANY OVERVIEW

Who are we?

Pratiti Technologies is an Outsourced Product Development (OPD) company focusing on technologies driving digital transformation.

- We are a technology **Craftsmen**
- We provide technology **Insight** in solving business problems
- We **Collaborate** with other best in class partners
- We strive to bring in **Certainty** in realizing innovative solutions

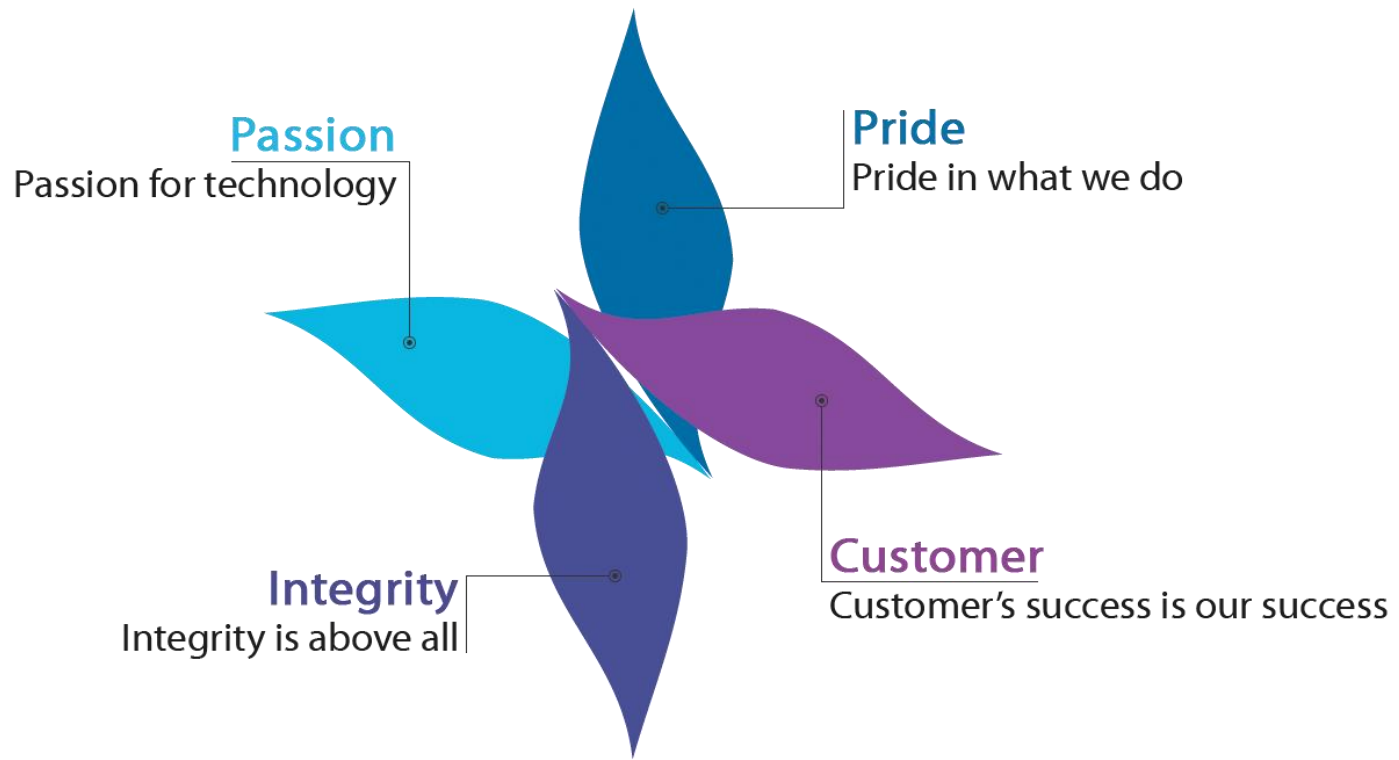

What we stand for?

VISION

To provide innovative solutions to solve customer's business problems

VALUES

Our Expertise in Crafting the Digital Solutions using

Internet of Things

Augmented & Virtual Reality

Cloud Computing and Mobility

Big Data Analytics

We help customers realize their innovations through our domain knowledge and deep technical expertise

Our Domain Expertise

Energy- Transforming the health of planet Earth

Our Expertise

Deep understanding of Renewable (Photovoltaic) , Distributed Generation, Smart Grids & Energy Storage

Can Help

Building next-generation data analytics products providing functionalities like Portfolio Management, Asset Health Analytics, Operation Insights, Failure Detection and Energy forecasting

Engineering & Manufacturing- Transforming industrial operations

Our Expertise

Deep knowledge in Industry 4.0, Manufacturing Technologies and Manufacturing Engineering.

Can Help

Building new technology stack for Predictive Maintenance, Intelligent Inventory Management, Dynamic Scheduling, Predictive Quality and Manufacturing Intelligence

Our Domain Expertise

Smart City- Enabling sustainable economic growth

Our Expertise

Deep expertise water distribution systems and intelligent street lighting system

Can help

Building new technology stack for smart cities – edge devices, IoT gateways, cloud platforms, analytics and reporting

Healthcare- Creating value in Digital Healthcare ecosystem

Our Expertise

Deep understanding of EHR, Clinical Decision Support Systems (CDSS), mobile health, smart medical devices, clinical remote monitoring and connected medical environment. Well versed with GDPR and HIPAA compliances.

Can help

Building new technology stack – smart devices, cloud platforms, analytics, mobile apps and integration with other services

Technology services to help you in building New Product

Product Planning Phase

- Idea Formulation & Problem Definition
- Product Backlog (user stories) creation
- Defining user experience

Technology Planning Services

- Solution Architecture
- Technology Infrastructure and Operations Planning
- Overview & Software Development Plan

Software Product Development & Deployment Phase

- Agile development methodology
- DevOps

Post Development Support

- Product Maintenance
- Cloud Operations

We help customers realize their innovations through flexible business engagements

Technologies that you can use

IoT & Connected Devices

IoT Platforms

Predix, MindSphere, SiteWhere, AWS IoT, Azure IoT

IoT Gateways

Custom development

We provide services for development of IoT platforms and application supporting cloud Computing or fog Computing as well as Hybrid

Cloud & Mobile Solutions

Cloud Platform

PaaS, Amazon AWS, Microsoft Azure

Mobile Platforms

Android, iOS, Windows

We do cloud native application development as well as re-engineering of web applications to enable horizontal scaling.

Mobile apps for smart devices and enterprise mobility

Big Data and Analytics Reporting

Tools and Frameworks

Hadoop, R, Rapid Miner, Drools

We Provide Technology services for mining & modelling, business intelligence and data analytics.

Augmented Reality and Virtual Reality

SDKs, APIs & Framework for AR/VR

SimpleCV, Kudan AR, Vuforia, Wikitude SDK, ARToolkit

A-Frame, WebVR, Primrose, React VR, Argon.js

Building AR/VR enabled solutions for great customer experience.

NOT A SHARK IN SUIT.
NOT A CORPORATE WOLF.
IN BUSINESS, ALL YOU NEED TO BE
IS A HUMAN BEING WITH INSIGHT

THANK YOU
